RE: ML 52805; Gypsite Pilot Mine

Gentlemen:

I understand that the Utah Division of Oil, Gas & Mining will no longer regulate gypsite dune mines located upon state trust lands. Therefore, pursuant to the terms and conditions of ML 52805, the Trust Lands Administration requests that you post a cash reclamation bond in the amount of \$25,000 with this agency, within the next 30 days. You may submit the bond in the form of a check made payable to the School and Institutional Trust Lands Administration, for performance and reclamation under Mineral Materials Permit ML 52805.

The Trust Lands Administration will henceforth regulate mining and reclamation operations under the SITLA permit, in lieu of regulation by DOGM. Please submit all mining and reclamation plans, or changes, regarding the SITLA lands to my attention for review and approval. Please contact me if you have any questions in this matter.

Sincerely,

John T. Blake  
Deputy Assistant Director/Minerals

Paul Baker  
Oren Gatten
